UCSF TODAY & TOMORROW

SATURDAY THROUGH FRIDAY MAY 29-JUNE 11, 1976 UC-SAN FRANCISCO

Honors & Appointments

GOODMAN, HOWARD M., Assoc. Prof. Biochem/Biophysics: awarded a Macy Faculty Scholar Award by the Josiah Macy, Jr. Foundation. He is one of 32 faculty members at medical schools throughout the nation to receive the Foundation's award this year for study abroad. They are the third group of recipients in the program established by the Foundation in 1972 to allow outstanding medical scholars to spend six months to one year in concentrated research and study in a fresh environment. Dr. Goodman will conduct his project on Cell and Molecular Biology at Kyoto University in Japan.

ABLON, JOAN, Assoc. Prof. Medical Anthropology in Residence, Psych. & International Health, School of Medicine: Named President-Elect of the Southwestern Anthropological Association at the April annual meeting held in San Francisco.

BESTE, DONALD F., Dir. Pharmaceutical Service: Elected President of the American Society of Hospital Pharmacists for the 1976-77 term.

SHAW, EDWARD B., Prof. Emeritus, Pediatrics: Recipient of Distinguished Teaching Award presented by the Alumni-Faculty Association, UCSF.

CARBONE, JOHN V., Prof. Med.: Recipient of Alumnus of the Year Award presented by the Alumni-Faculty Association, UCSF.

HOGAN, MICHAEL J., Prof. Emeritus, Ophthalmology: Recipient of Distinguished Teaching Award presented by the Alumni-Faculty Association, UCSF.

CORT PRODUCTION: Won an award at the John Muir Memorial Hospital Film Festival. An educational film entitled, "Reaching Orgasm," directed by Richard Beindorf, was made for use by the Human Sexuality Program at UCSF.

SCHINDLER, ROBERT A., Asst. Prof. Otolaryngology: Recipient of a five-year Teacher-Investigator Award from the National Institute of Neurological and Communicative Disorders and Stroke.

MIOTTEL, JOHN W., Jr., Pres. of the Auxiliary Board, SFGH: Elected to second term as President.

CHARLES, MRS. ALLAN E., charter member of SFGH Auxiliary: Named President Emeritus of SFGH Auxiliary Board.

News Briefs

Formal dedication of the new 437 bed VA Hospital at Ft. Miley was held May 27. Among the distinguished guests were: Richard Roudebush, Administrator, Veteran's Affairs; Lawrence V. Foye, Deputy Chief Medical Director, Dept. Medicine & Surgery; UCSF Chancellor Francis A. Sooy; Julius R. Krevans, Dean, UCSF School of Medicine; Quinton Kopp, Chairman, Board of Supervisors; Robert Mendelsohn, member of the Board of Supervisors representing Mayor Moscone; and Major General William M. Miley, U.S. Army Ret., son of Lt. Colonel John D. Miley, for whom Ft. Miley was named.

The first of two community dental clinics to be established by UCSF School of Dentistry was approved by the Board of Regents at its meeting on May 20. The two clinics are to be located in underserved areas — one at the UC Extension, to be constructed on a vacant site bounded by Buchanan and Hermann Streets, and the other to be located at SF General Hospital to serve the Mission District. The University Extension site is the one which was approved by the Regents. It will consist of a $1,414,000, two-story structure which will contain 16 dental chairs, to be used for treatment of patients in connection with the clinical training of junior and senior dental students. Approximately 48 patients and visitors are expected each day. Staffing will include 9 to 12 persons, plus one dental assistant for each chair. Students will be assigned to the facility for periods of four to six weeks. In addition to clinical services, teaching and research, there also will be space provided for community dental health education programs. The second community dental clinic, to be located at SFGH, will be brought before the Regents before the end of the year. It will add an additional 24 chairs, plus 6 already in existence, and will serve patients in the Mission District.

UCSF group of researchers is one of the first to report the use of a skin electrode in monitoring oxygen levels of sick infants. A small electrode taped to the skin of an infant whose blood oxygen is unstable due to lung or heart disease, can measure simply and continuously the amount of oxygen therapy it will need. Joyce Peabody, Fellow in Neonatology, reported the results of this eight-month oxygen study of high-risk infants at an American Pediatrics Research Society meeting in St. Louis. Her co-authors are George A. Gregory, Associate Professor of Anesthesia & Pediatrics, Mary Willis, Research Technician and William H. Tooley, Professor of Pediatrics. A husband-wife team of German physicians, Albert and Renate Huch, developed the skin electrode in 1972.

Researchers at SFGH have found a treatment that helps prevent formation of kidney stones in patients with certain gastrointestinal, pancreatic and liver disorders. The treatment was developed after some patients with these conditions were shown to have hyperoxaluria and oxalate kidney stones, a disorder known by the term enteric hyperoxaluria. Results of the research were presented at the plenary session of the Annual Meeting of the American Gastroenterological Association in Miami, Fla. The principal investigator of the study "Treatment of Enteric Hyperoxaluria with Calcium and Aluminum" is David L. Earnest, UCSF Asst. Prof. of Medicine, with co-investigators William Admirand, Professor of Medicine, and Steven Gancher. Hibbard E. Williams, Chief of the SFGH Medical Service, also collaborated in the study. The team developed the theory that fairly large amounts of calcium, administered orally to these patients, would provide enough calcium in the intestine to combine with oxalate as well as fat in a form that would be excreted in stool rather than absorbed and excreted through the kidneys. This theory was tested in 16 patients with enteric hyperoxaluria who also, for two weeks, received a diet containing normal amounts of fat and oxalate. The amount of oxalate excreted in urine was significantly less during the period when calcium was added to the diet. Other compounds, such as lanthanum, zinc, barium and aluminum were found to have a similar effect in oxalate from solution in the intestine.

A prosthetic aid that may restore hearing to some profoundly deaf patients is being developed by UCSF researchers. Michael M. Merzenich, Associate Professor of Otolaryngology, reviewed their work at a conference on neural prosthetic devices, sponsored by the National Services Administration and the Institutes of Neurological Diseases and Communicative Disorders. Merzenich and his associates, along with Stanford University engineers, have constructed sophisticated electrodes and electrical stimulation devices that produce a patterned stimulation of the auditory nerve. A patterned, rather than total auditory nerve stimulation was produced so that patients could discriminate among sounds, particularly those needed to hear intelligible speech. Merzenich and colleagues have recorded auditory nerve patterns of laboratory cats. By attaching electrodes to the feline scalp, they artificially stimulated the auditory nerve, recording populations of nerve cells within the brain. An implant team, headed by Robin P. Michelson, Clinical Professor of Otolaryngology, expects to insert the improved device in a select group of patients on an experimental basis sometime this year. Their work has been financed by grants from the National Institutes of Health and the Coleman Foundation of San Francisco.

29 Saturday

Division of Urology Grand Rounds. 14th fl. Moffitt. 9 a.m.

The UC San Francisco Chapter of the Student National Dental Association will present its First Annual Awards Ceremony on May 29, 1976 from 1:30 p.m. to 4:00 p.m. in Richardson Hall at UC Extension, 55 Laguna St., San Francisco. Awards will be presented to honor those individuals who have made outstanding contributions toward the attainment of human dignity and equality for all people in the health professions. Guest speaker will be Dr. Thomas O. Hilliard of the Urban Institute of Human Services, Inc. Dr. Hilliard is also a clinical psychologist who has authored numerous books, articles, and papers about Black psychology. Verlin Sandles of "Evolution of the Blues" and her dance troupe will provide entertainment at the ceremony, which will be followed by a champagne reception for the awardees. The reception will be held at Park Vista Reception Hall, 756 Stanyan St., San Francisco, from 5 to 7 p.m. For further information phone (415) 666-4086.

1 Tuesday

Hospitals and Clinics: *New Employee Orientation.* Refreshments, exhibits, slide presentations, free guide to entering the UCSF system. Veteran employees are welcome to attend. For more information call 666-3247. 44 A. 9-10:30 a.m.

Psychiatry Grand Rounds: *A Psychoanalytic Study of Eruptive Affects.* Joseph Caston, Asst. Clin. Prof. Psych., S.F. Psychoanalytic Institute. Open to Faculty, staff, students of UCSF and other health science professionals. LPNI Aud. 11 a.m.-12:30 p.m.

Topics in Medical Anthropology: *The Transformation of Consciousness: Drug and Non-Drug States.* Joan Halifax-Grof, Ph.D., Esalen Institute. Open to all interested faculty and students. 319 C. Noon-1:30 p.m.

International Folkdancing. *Led by Dean Linscott.* No partner needed. Everyone welcome. Millberry Gym. Noon-1:30 p.m.*

Biochem/Biophysics Seminar: *Production of Proteases by Cultured Normal and Malignant Cells.* Daniel B. Rifkin. 302 HSW. 4 p.m.

2 Wednesday

Division of Urology Grand Rounds. 14th fl. Moffitt. 8 a.m.

Dermatology Conference. Letterman. 8:10 a.m.

Chief of Service Rounds, Dept. of Pediatrics. 666 M. 9 a.m.

Medical Anthropology Seminar: *The Practice of Oriental Medicine in Synthesis of East and West.* Margaret Lock,-Dept. Anthropology, UCB. 310 C. 10-Noon.

Medical Grand Rounds. Cole Hall. 10:30-Noon.

Anatomy Seminar: *Modification of the Differentiative Program of the Embryonic Pancreatic Cells by the Thymidine Analog 5-Bromodeoxyuridine.* Raymond Pictet, Research Assoc., Dept. Biochem. 1309 HSE. Noon.

Film Series (CAL sponsored): *Ascent of Man: Long Childhood.* 300 HSW. Noon-1 p.m. Free.*

Neuroendocrinology Seminar: *Central Regulation of Circadian Rhythms.* C.M. Winget, Research Scientist, NASA-Ames Research Center, Moffett Field, CA. 758 S. 2 p.m.

Basic Science Lecture Series: *Structure of Active and Inactive Chromosomal Subunits.* Harold Weintraub, Dept. Biology, Princeton U. 301 HSW. 3 p.m.

Neurobiology Seminar: *Interactions and Feedbacks in the Turtle Retina.* M.G.F. Fuortes, Chief, Laboratory for Neurophysiology, NIH. 758 S. 4 p.m.

Pediatric Urology: *Fetal Surgery.* Emil A. Tanagho, Prof. Surgery & Urology and Carolyn Piel, Assoc. Prof. Pediatrics. 4:30-6 p.m. 14th fl. Moffitt Solarium.

Radiology Grand Rounds: *Clinical Correlation of Arthroscopy and Arthrography.* Joel M. Kanter, Clin. Instructor in Orthopaedic Surgery. 303 HSW. 5-6:30 p.m.

Leadership and Communication in the Changing Organization.
June 2 & 3. 8:30 a.m.-4:30 p.m.
Presented by the Organizational Development Unit of UCSF. Henry McGuckin, Prof. Communications, San Francisco State will present a program which attacks communications through issues directly tied in to the manager's concerns. University of San Francisco, University Center Building, Rm 413, Corner of Golden Gate and Parker. For further information call 666-4032.

3 Thursday

Pediatric Grand Rounds: *Innocent Murmurs in Childhood.* Saul Robinson, Clin. Prof. Pediatrics. *The Off-Beat Heart.* Paul Stanger, Assoc. Prof., Pediatrics (Cardiol.) & CVRI & Path. 664 S. 8:30-10 a.m.

Hospitals and Clinics: *New Employee Follow-Up Program.* Refreshments, movie, tour. For employees hired in April, 1976, and all other interested, veteran employees. For more information call 666-3247. 44 A. 10 a.m.-Noon.

Biochem/Biophysics Seminar: *The Regulation of HMG-CoA Reductase in HTC Cells.* O. Ross Beirne. 1364 S. 4 p.m.

Commencement Dates 1976

School of Dentistry
June 12, 2 p.m.
Zellerbach Hall, UC-Berkeley
Speaker: Ellsworth Kelley, D.D.S., Professor & Vice Chairman, Removable Prosthetics, UCSF

School of Medicine
June 5, 2 p.m.
St. Francis Hotel, Grand Ball Room
Speaker: Lawrence M. Tierney, Jr., M.D. Assistant Professor of Medicine, UCSF

School of Nursing
June 19, 1 p.m.
Marin Veterans Memorial Building, Marin Civic Center
Speaker: To be announced

School of Pharmacy
June 19, 12:30 p.m.
Palace of Fine Arts, San Francisco
Speaker: John S. Millis, Ph.D., Chairman, National Fund for Medical Education, Cleveland, Ohio

TV Panel Filmed June 1

A symposium on malnutrition and its effect on infant brain development will be filmed by ABC-TV in Cole Hall, Tuesday, June 1, at 1:30 p.m. Two UCSF faculty members, Peter A. Dallman, M.D., Associate Professor of Pediatrics; and Miriam Gould, M.D. Assistant Clinical Professor of Psychiatry and Associate Physician in the Student Health Service, are two of the panel members. The symposium with a network film, "The Unfinished Child," will be aired Saturday, June 12, at 7:30 p.m. on KGO-TV.

Bicentennial Exhibit to June 6

San Francisco Twin Bicentennial Science and Industry Exposition. May 26 - June 6. Fort Mason Golden Gate National Recreation Area, Pier 2. 9:30 a.m. - 6 p.m. weekdays; 9:30 a.m. - 8 p.m. Friday, Saturday & Sunday.
UC Hospitals Auxiliary and UC Hospitals and Clinics are sponsoring an exhibit of photographs featuring events related to plague, botulism, earthquakes, and St. George's Vine and viticulture. Chairperson is Mrs. Betty Sooy. For additional information call 666-4392.

Chancellor's Awards

Thursday, June 3. Cole Hall. Noon.
The Public Service Awards are made annually to staff, students, and faculty who have made outstanding contributions to the Bay Area community in such fields as education, equal opportunity, health services, neighborhood improvement, and other urban problems. The awards consist of a certificate of recognition and a check in the amount of $500. Because of the national as well as local significance of the individual's efforts on behalf of equal opportunity, a special award, "The Thomas N. Burbridge Public Service Award" is for $600. Dr. Price M. Cobbs, noted psychiatrist in the field of inter-racial relations and co-author of national bestsellers, *Black Rage* and *The Jesus Bag*, will join in presenting the awards to the individuals who were selected for their dedicated service to the San Francisco community.
The nominations are as follows:
Faculty - C. Clifford Attkisson, Asst. Prof. Med. Psych. in Residence, LPNI; Charles Becker, Chief, SFGH Alcohol

* — open to the public.

UCSF

4 Friday

Children's Service Clinical Conference. LPNI Aud. 9:30-11 a.m.

Reproductive Biology Seminar: Corticoid Receptors Studies with Photoaffinity Labels and Chromatin Probes. Diana Marver, Grad. Student, CVRI. 1486 M. Noon.

ACMI Conference Pat Hanson, R.N. 317 HSE. 4:30-5:30 p.m.

Cole Hall Cinema: *The Wizard of Oz.* Children under 14, $.75; UCSF Students, MU Members, Senior Citizens, $1.25; UCSF Employees, Other Students, $1.50; Guests $1.75. Cole Hall. 6:30 & 8:30 p.m.*

5 Saturday

Division of Urology Grand Rounds. 14 fl. Moffitt. 9 a.m.

7 Monday

Division of Urology. Visiting Prof. Willet F. Whitmore, Chief of Urology Service, Memorial Hospital, New York, N.Y. working with residents and staff at Kaiser Hospital, Oakland. 8 a.m.

Division of Urology Seminar: *Role of Chemotherapy in the Treatment of Prostatic Cancer.* Michael Friedman, Asst. Prof. Cancer Research Institute. 300 HSW. 3:30-4:30 p.m.

Division of Urology Seminar: *Bladder Tumors: General Management.* Willet F. Whitmore, Visiting Prof. (see Monday, June 7, 8 a.m.) 300 HSW. 4:45-6 p.m.

8 Tuesday

Division of Urology. Willet F. Whitmore, Visiting Prof. (see Mon. June 7, 8 a.m.) working with residents and staff at Moffitt. 8 a.m.

Psychiatry Grand Rounds: *Psychoanalytically Oriented Psychotherapy - A Case Study Introduction and Presentation.* James Edgar, Clin. Instructor, Assoc. Member, S.F. Psychoanalytic Institute. Open to faculty, staff, students of UCSF and other health science professionals. LPNI Aud. 11 a.m.-12:30 p.m.

International Folkdancing. *Led by Dean Linscott.* No partner needed. Everyone welcome. Millberry Gym. Noon-1:30 p.m.*

Public Tour of Campus. Begins in Medical Sciences Lobby. Call 666-4394 for further information. 1-2:30 p.m.*

Division of Urology Seminar: *What We Can Learn About Embryogenesis from Testicular Teratocarcinomas.* Gail Martin, Dept. Pediatrics. 300 HSW. 3:30-4:30 p.m.

Division of Urology Seminar: *Treatment of Germinal Tumors of Adult Testes.* Willet F. Whitmore, Visiting Prof. (see Mon., June 7, 8 a.m.) 300 HSW. 4:45-6 p.m.

9 Wednesday

Division of Urology. Willet F. Whitmore, Visiting Prof. (see Mon. June 7, 8 a.m.) working with residents and staff at SFGH. 8 a.m.

Division of Urology Grand Rounds. 14th fl. Moffitt. 8 a.m.

Dermatology Conference. A 326. 8:10 a.m.

Chief of Service Rounds, Dept. of Pediatrics. 666 M. 9 a.m.

Medical Anthropology Seminar: *The Interface between Traditional Healing and Western Medicine: People's Republic of China.* George Brown, Visiting Research Physician, Health Policy Program. 310 C. 10-Noon.

Medical Grand Rounds. Cole Hall. 10:30-Noon.

Anatomy Seminar. 1309 HSE. Noon.

Neuroendocrinology Seminar: *Neural Elements in the Control of the Adrenal Cortical System.* W.C. Engeland, Endocrine Grad. Student. 758 S. 2 p.m.

Department of Psychiatry, School of Medicine: Certificate ceremony for post-doctoral residents and fellows. Otto Kernberg, Psych., Columbia U Col. Physicians & Sur. LPNI Aud. 3 p.m.

Basic Science Lecture Series. *Structure and Evolution of Transplantation Antigens: Microsequence Analysis of Membrane Proteins.* Lee Hood, Division of Biology, Cal Tech. 301 HSW. 3 p.m.

Division of Urology Seminar: *The Changing Role of Radiotherapy in Management of Testicular Tumor.* Theodore Phillips, Prof. & Chairman, Division of Radiation Oncology. 302 HSW. 3:30-4:30 p.m.

Neurobiology Seminar: *Reversal of the Physiological Effects of Monocular Deprivation in the Kitten.* Robert Y. Moore, Prof. Dept. Neuroscience, UCSD. 758 S. 4 p.m.

Division of Urology Seminar: *Preoperative Irradiation and Cystectomy in the Management of Selected Patients with Bladder Cancer.* Willet F. Whitmore, Visiting Prof. (see Mon., June 7, 8 a.m.). 302 HSW. 4:45-6 p.m.

Radiology Grand Rounds: *Cardiac Myopathies.* Charles Higgins, Asst. Prof. Radiology, UCSD. 303 HSW. 5-6:30 p.m.

10 Thursday

Division of Urology. Willet F. Whitmore, Visiting Prof. (see Mon., June 7, 8 a.m.) working with residents and staff at VA. 8 a.m.

Pediatric Grand Rounds: *Psoriasis.* David Cram, Assoc. Prof. Derm. *Skin Infections.* Howard Maibach, Dir. & Prof. Derm, Res. Assoc. (Onc.), CRI. 664 S. 8:30-10 a.m.

Division of Urology Seminar: *Ureteral Function and Repair.* Frank Hinman & John Heine, Division of Urology. 664 S. 3:30-4:30 p.m.

Division of Urology Seminar: *Treatment of Renal Cancer (Including Renal Pelvis).* Willet F. Whitmore, Visiting Prof. (see Mon., June 7, 8 a.m.) 664 S. 4:45-6 p.m.

Phaco Fragmentation and Irrigation of Cataracts and Other Extra Capsular Surgical Techniques. June 10-11. 1645 HSE. Limited to 12 surgeons. Presented by the Department of Ophthalmology and Extended Programs in Medical Education. For registration information call 666-2483. For program information call 666-4251.

11 Friday

Division of Urology. Willet F. Whitmore, Visiting Prof. (see Mon., June 7, 8 a.m.) working with residents and staff at Moffitt. 8 a.m.

Children's Service Clinical Conference. LPNI Aud. 9:30-11 a.m.

Reproductive Biology Seminar. Title to be announced. William Coty, Dept. Cell Biology, Baylor College of Medicine. 1486 M. Noon.

Division of Urology Seminar: *Extended Total Excision of Adeno-Carcinoma of Prostate.* Joseph Spaulding, Clin. Instructor. 302 HSW. 3:30-4:30 p.m.

Division of Urology Seminar: *Retropubic Implantation of I-125 in the Management of Prostatic Cancer.* Willet F. Whitmore, Visiting Prof. (see Mon., June 7, 8 a.m.) 302 HSW. 4:45-6 p.m.

's Awards June 3

Detoxification Program; Patricia G. Calarco, Asst. Prof. in Residence, Anatomy & Ped.; Richard Fine, Dir. SFGH Med. Clin.; George Stone, Prof. Med. Psych. in Residence, LPNI.

Staff - Jerry Hoynes, Library Asst. II; Wanda James, Clin. Social Worker II, Ambulatory and Comm. Med.; Stella R. Pawson, R.N., Staff Research Assoc. in Hooper Foundation; Ruth Prael, Staff Research Assoc., LPNI; Robert Shadel, Asst. Develop. Engin., Dept. Biochem/Biophysics; J. Doris Wellenkamp, R.N., Nursing Supervisor, Nursing Services, Outpatient Clinic. A. Freeman Bradley, Jr., Specialist, CVRI and Anesthesia Research.

Students - Nannette Benedict, 3rd yr., Sch. Den.; Rabette Husman, Dental Hygiene, Sch. Den.; William K. Schmidt, Grad., Dept. Pharm., Eddie Washington, Grad., School of Nursing, Dept. Social and Behav. Sci.

Faculty, students and staff of UCSF are invited to attend.

SF/MAY 29-JUNE 11

SFGH

1 **TUESDAY**
Pediatric Grand Rounds: *Swine Vaccine: Medical and Legal Considerations.* John Mills, Asst. Prof. in Residence, Med. Path. Aud. 8:30 a.m.

Medical Grand Rounds. Path. Aud. 11 a.m.

2 **WEDNESDAY**
Surgery Grand Rounds. Surgical Amphitheater. 8 a.m.

3 **THURSDAY**
Trauma Conference. Surgical Amphitheater. 8:30 a.m.

Combined Hematology Rounds. Path. Aud. 1 p.m.

5 **SATURDAY**
Urology Rounds. Ward 25. 8:30 a.m.

7 **MONDAY**
Neurology-Neurosurgery Grand Rounds. 34 Solarium. 8 a.m.

8 **TUESDAY**
Pediatric Grand Rounds: *Osteogenesis Imperfecta: Medical, Surgical and Genetic Considerations.* Edwin Bovill, Prof. Orthosurgery; Bryan Hall, Asst. Prof. in Residence, Pediatrics. Path. Aud. 8:30 a.m.

Medical Grand Rounds. Path. Aud. 11 a.m.

9 **WEDNESDAY**
Surgery Grand Rounds. Surgical Amphitheater. 8 a.m.

10 **THURSDAY**
Trauma Conference. Surgical Amphitheater. 8:30 a.m.

VA

1 **TUESDAY**
Medical Grand Rounds. Aud. 10:30 a.m.

2 **WEDNESDAY**
UCSF Medical Grand Rounds via closed-circuit TV. A 125. 10:30 a.m.

4 **FRIDAY**
Cardiothoracic Grand Rounds. Room A 125. 8 a.m.

8 **TUESDAY**
Medical Grand Rounds. Aud. 10:30 a.m.

9 **WEDNESDAY**
UCSF Medical Grand Rounds via closed-circuit TV. A 125. 10:30 a.m.

11 **FRIDAY**
Cardiothoracic Grand Rounds. Room A 125. 8 a.m.

News Briefs

Chancellor's Summer Youth Program. Eighth consecutive year of this program at UCSF. The program's objectives are twofold: to provide disadvantaged high school students with beneficial work experiences, as well as to expose them to health science careers. Deans, directors, department chairpersons, administrative officers and others concerned are urged to examine their department's work assignments and determine whether or not a youth worker can be hired.
Personnel is responsible for coordinating and implementing this program which is partially funded by the Neighborhood Youth Corps. For further information call x4278.

Five members of the SFGH Emergency Service are authors of a paper presented at the sixth annual meeting of the University Association for Emergency Medical Services, May 11-15, in Philadelphia. They are John Mills, Assistant Chief of the service, Anna L. Webster, Constance B. Wofsy, Phyllis Harding, R.N., and Donna D'Acuti, R.N. The study on "The Effectiveness of Nurse Triage in an Urban County Hospital Emergency Department," found that trained nurses can separate acutely ill patients from those who require less urgent care with a 98 percent accuracy, and that these nurses contribute significantly to the smooth functioning of a large emergency department. The SFGH Emergency Service is the only one in the City with such a triage system.

A computer-based imaging system, recently acquired by the Nuclear Medicine Division, SFGH Clinical Laboratories, is providing for important advances in patient care and opening new areas of medical research at SFGH, according to Myron Pollycove, Vice-Chairman and Professor of Laboratory Medicine.

Today/Tomorrow will be published on a monthly basis for the months of July and August. Please submit copy for *July's* issue before Friday, June 18, 11 a.m.
Deadline for copy for the *next issue* which covers events through June 12/June 30 will be 11 a.m., Tuesday, June 1. Send your copy to News Services, 1475 4th Avenue, Attn. Calendar.

UCSF & Almanac

FISHMAN, ROBERT A., Prof. & Chairman, Dept. Neurology: Served as the first Stephen Swank visiting Prof. Neurology at U. of Oregon ... HOFF, JULIAN, Assoc. Prof. Neurosurgery & Chief of Service, SFGH.: Addressing the Third Annual International Symposium on Intercranial Pressure, in Gronigen Holland, June 1-3 ... RAPAPORT, ELLIOT, Chief of Cardiology, SFGH & William Watt Kerr Prof. of Medicine, UCSF: Speaking at the Seventh Congress, European Society of Cardiologists in Amsterdam, June 20-25.

IN MEMORIAM

WILLIAMS, JUSTIN A., retired Assoc. Clin. Prof. Radiology, UCSF School of Medicine. Native of Colorado and a 1928 graduate of U. of Colorado Medical School; belonged to numerous medical societies and was past president of the S.F. Medical Society.
